

ARMOR ANYWHERE WITH SECURE HOSTING

Armor Anywhere with secure hosting provides a secure and compliant high-performance hosting infrastructure for organizations with mission-critical and sensitive applications and data.

- Private cloud infrastructure with 99.99% uptime
- Fully managed, including support for architecture, migration, and ongoing management
- Integrated security and compliance controls across your network and host

THREAT DETECTION AND RESPONSE

Get advanced detection of threats to your applications and data. Go beyond alerting to receive a guided response from our SOC experts.

AUDIT-READY AND CONTINUOUS COMPLIANCE

Simplify compliance by meeting key controls in frameworks such as PCI DSS, HIPAA/HITRUST, and GDPR.

PROTECTION FOR MISSION-CRITICAL APPLICATIONS AND DATA

Offload the headaches of managing infrastructure while getting the industry's leading protection for your most sensitive workloads.

Simplify adherence to major compliance frameworks such as:

PCI DSS | ISO27001 | HITRUST | AICPA SOC2

Simplify compliance with Armor Anywhere with secure hosting. Armor addresses controls across the following domains:

- Physical Security
- Application Security
- Server Security
- Data Backup
- Security Audits
- Data Management
- Perimeter Security
- Network Security
- Administrative Security
- Secure Data Deletion
- Access Control
- Incident Response (IR)

For organizations with mission-critical and sensitive compliant applications and data that don't want to maintain infrastructure.

ALWAYS HAVE A BACKUP PLAN

- Armor Business Continuity/Disaster Recovery Services
- Armor Advanced Backup
